

## Improving **PERFORMANCE** and **QUALITY** through continuous **INNOVATION**

- High Performance Molded Float For Less Scale Build-up
- Epoxy Resin Outer Casing For Long Term Structural Strength
- Round Bottom Dome To Ease Installation
- More Noble Materials For Increased Chemical Resistance
- Machined Head For Reduced Corrosion Potential
- Rocker Arm Design For Enhanced Strength & Longer Life
- Non-Penetrating Rocker Arm Pins To Prevent Air Intrusion
- Non-Contact Magnets For Smooth Surface And Reduced Fouling

*"By choosing Viridian America pneumatic pumps, we realized short term capital cost savings and long term operational cost savings." - Area Gas Operations Manager*

## Superior **DESIGN** and **QUALITY** results in **SIGNIFICANT** operational cost **SAVINGS**

All PNEUMATIC PUMPS might seem the same.

They are not DESIGNED or MANUFACTURED the same.

### Viridian America is delivering:

**Uptime** – Longer runs between cleanings resulting in fewer interruptions in production

**Efficiency** – Decreased maintenance demands on gas technicians and support crews

### Viridian America is saving you:

**Time** – A more structurally sound product built from more chemically resistant materials results in a higher quality product with less downtime and longer runs between cleaning

**Effort** – Superior design results in easier and quicker cleaning when needed

**Cost** – Less downtime, lower maintenance frequency and less effort results in overall cost savings with higher operating efficiency

### Superior Design:

**Fewer Leaks** – Unique design eliminates a common air leak source found on most other pumps

**Discharge Integrity** – Less air in discharge line reduces build up of precipitation in discharge lines

**Easier to Service** – Lighter pumps are easier to install, remove, and handle during maintenance

### Higher Quality Components and Materials:

**Materials** – Greater corrosion resistance with wider working temperature range and less residue build-up/fouling

**Components** – Engineered to be lighter, easier and faster to clean, and longer lasting than any others on the market

**Long Life** – Overall longer product lifespan vs. other pumps

VP Series includes 4", 3", and 2" bottom and top loading models.

### INDUSTRY FEEDBACK

A leading provider of specialty construction and environmental services to landfill clients, that has serviced more than 1,500 pneumatic pumps over the last three years has reported:

*"We are seeing more than 20% saving in the time required for complete disassembling, cleaning and reassembling Viridian America pneumatic pumps vs. one of Viridian America's competitors."*

*"The Viridian America pneumatic pumps and their spare parts are significantly more robust in comparison with all of the other pneumatic pumps vendors."*

*We also don't have to keep as many spare parts to service Viridian America pumps vs. what we have to do for other pneumatic pumps"*

- Landfill Gas Manager at a landfill with more than 150 pneumatic pumps installed.
